Subject: Phase I Bond Release for DBD C/015/017

Jim,

As you know I am wanting to start the Phase I bond release procedures for the DBD Mine. However, according to the Requirements for Phased Bond Release (Tech - 006) there are some things that need to be completed prior to the request for release. Below are items (in my opinion) that need addressed.

- 1) As-Built drawings of reclamation incorporated into MRP
- 2) Text changes in the reclamation volumes stating completed reclamation (or should I make a Phase I bond release volume?)
- 3) Post mining land use changes ---recreation? for the 4-wheeler trail
- 4) Remove portions of the disturbed area for gas well and 4-wheeler trail
- 5) Do this item first --- Clean up current permit as follows:
 - Volume 1, Part 1 -- remove
 - Volume 1, Part 2 -- remove AERC Report (I believe we already have a copy in the Confidential file)
 - Renumber starting on pg 2-146
 - Remove description of DBD haul road --pg 2-169 thru 2-170
 - Amend or remove soils information (this info is in the reclamation volumes)
 - Retain fish and wildlife info
 - Retain but amend land use info
 - Retain prime farmland info
 - Retain alluvial valley floors info
 - Volume 2, Part 3
 - Develop a historical info volume and insert Part 3
 - Volume 2, Part 4
 - Remove reclamation plan -- pg 4-1 thru 4-71
 - Amend subsidence control plan to state that limited underground mining exists under the permit area. Give a history of permit boundary changes.
 - Remove pg 4-78 thru 4-115
 - Remove appendices
 - Retain Appendix IX
 - Add References to Phase 1, Phase 2, and Phase 3 reclamation plans
 - Add appendices for remote portal reclamation discussion and pump house reclamation
 - Volume 3 - Maps
 - Remove 2-15
 - Move 2-17A to confidential file if not there already
 - Move 3-1 and 3-1 to Historical volume
 - Remove 3-3
 - Move 3-5, 3-7, 3-8 to Historical volume
 - Volume 4
 - Move 3-9, 3-10, 3-11 to Historical volume
 - Remove 4-1 (including figures), 4-3, and 4-4
 - Volume 5

Retain as historical information. Include cover sheet to state this.

Volume 6

Remove since it is empty

Volume 7

Move sediment pond info to Historical volume

Move haul road info to Haul road historical data volume

Suggestions are welcome. Let me know what you think. I would like to get everything in order before proceeding into Phase I bond release.
